

Wednesday april 28th, 2010

	Title	Speakers
9:30-10:30	Steering Committee Meeting	
10:30-11:30	Welcome and poster viewing + on site registration	
11:30-12:30	Opening conferences	
	CARE conferences in progress	Maura Daly Iversen (USA) Ingemar Petersson (Sweden)
	Non-pharmacological care for people with arthritis	Francis Guillemin (France)
12:30-14:00	Lunch and poster viewing	

14:00–
18:00**Complex interventions Session**

Chair: Kåre Birger Hagen (Norway)

Co-organizers: Stefan Bergman (Sweden)

The objective of this session is:

- To describe models of complex non-drug interventions and therapeutic strategies, to define the process of evaluating a complex intervention, present related study designs, and how to report

	Title	Speakers
14:00-14:10	Introduction	
	Invited presentation	
14:10	What is missing from descriptions of non-pharmacological treatments in trials and reviews and how could it be improved?	Isabelle Boutron (France)
	Oral abstract presentations (10 minutes each)	
15:00	Pharmacist Initiated Intervention Trial in Osteoarthritis (PhIT-OA): Results of a Randomized Multidisciplinary Intervention for Knee Osteoarthritis	Carlo A. Marra (Canada)
15:10	Preoperative physical therapeutic intervention for frail elderly patients who are scheduled for elective total hip replacement: A randomized pilot trial	Thomas J. Hoogeboom (The Netherlands)
15:30-16:15	Break and poster viewing	
	Invited presentation	
16:15	How we described the treatments in a trial comparing inpatient and outpatient rehabilitation for patients with AS?	Ingvild Kjekken (Norway)
	Oral abstract presentations (10 minutes each)	
17:00	Organization and Provider Factors That Influence Utilization of Arthritis Best Practices in Primary Care	Sydney C. Lineker (Canada)
17:10	The dissemination of an educational workshop to improve access to non pharmacological evidence based clinical practice guidelines for individuals with osteoarthritis and rheumatoid arthritis	Lucie Brosseau (Canada)
17:20	Non pharmacological target in French patients with acute gout – observation in general practice	Frédéric Lioté (France)
17:45-18:00	Summary of the session	

Thursday april 29th, 2010

8:00-9:00 Morning Mingle Mentor Tea

9:00 –
12:45**Health inequity, access to care and Patients'/Consumers' rights Session***Chair:* Linda Li (Canada), Francis Guillemin (France)*Co-organizer:* Ingemar Petersson (Sweden)

Health inequity is a rising global issue and the research in this area is increasing. International groups like the OMERACT and European Union have also dedicated resources to address the topic.

The objectives of this session are:

- To discuss factors associated with health inequity in non-pharmacological care in rheumatology
- To identify facilitators and barriers related to promoting consumer/patients rights in rheumatological care, and the action items
- To link the patient's perspective to research within rheumatological care

	Title	Speakers
9:00-9:15	Introduction and welcome	Linda Li Francis Guillemin
	Invited presentation	Facilitator: Linda Li
9:15	Factors associated with health inequity in rheumatology care	Rachelle Buchbinder (Australia)
9:35	Equity effectiveness loop	Cory Borkhoff (Canada)
9:55	Health inequity: Patient's perspective – Risk Analytica framework business plan	Gordon Whitehead (Canada)
10:15	Panel discussion	All speakers
10:30-11:15	Break and poster viewing	
	Oral abstract presentations (15 minutes each)	
11:15	Models of care and key elements of quality care for osteoarthritis	Cornelia H.M. Van den Ende (The Netherlands)
11:30	Discordance between need for care, health service utilization, and health service availability for arthritis and related conditions: a reason to develop alternative models of care	Elizabeth M. Badley (Canada)
11:45	Burden of arthritis and access to care in three Canadian Indigenous populations: Results of a total population-based study	Allen J. Lehman (Canada)
12:00	Validation of a self-administered inflammatory arthritis detection tool for rheumatology triage	Ruben Tavares (Canada) Joel Scarf (Canada)
12:15	The impact of ankylosing spondylitis on working life: A survey of voluntary organisation members	Jane Skerrett (UK)
12:30-12h45	Wrap up	Francis Guillemin
12:45-14:00	Lunch and poster viewing	

Thursday april 29th, 2010

14:00–
17:35**Cost effectiveness and health economy in nonpharmacological care Session**

Chair: Ann Bremander (Sweden)

Co-organizers: Margreth Grotle (Norway), Thea Vliet Vlieland (The Netherlands)

The objectives of this session are:

- To summarize the current knowledge on in health economics and rheumatic diseases with emphasis on the health economics of non pharmacological care.
- To discuss how the economic aspects of non-pharmacological care should be weighted against their benefits and to recommend strategies for future research in this area.

	Title	Speakers
14:00-14:10	Introduction	Ann Bremander
	Invited presentation	
14:10	An overview of health economics in rheumatic diseases	Gisela Kobelt (Sweden)
14:40	Specific issues in economic analyses on non pharmacological care in rheumatic diseases (<i>incl complex interventions linking with session 1</i>)	Wilbert van den Hout (The Netherlands)
15:00	Healthcare costs among patients who receive rehabilitation due to arthritis	Margreth Grotle (Norway)
15:20	Pharmacists conducted OA screening and economic analysis	Carlo Marra (Canada)
15:40-16:20	Break and poster viewing	
16:20	How should economic analyses guide access to non pharmacological care?	Thea Vliet Vlieland (The Netherlands)
16:30	The patient perspective on the added value of non pharmacological care	Connie Ziegler (Denmark)
16:40	Break out groups "How should the value of non pharmacological interventions in rheumatic diseases be weighted against their costs?"	
17:15-18:00	Report back and summary of session	

Friday april 30th, 2010

8:00-9:00 Morning Mingle Mentor Tea

9:00 –
12:30**Patient – Focused Outcomes and Personal Life Impact Measures Session**

Chair: Maura Iversen (USA)

Co-organizer: Marja Leena Kukkurainen (Finland)

The objectives of this session are:

- To investigate whether outcomes used for drug research are appropriate and feasible for non pharmacological research, with a particular look at patient-reported outcomes (patient's perspective), in the light of the ICF Classification.
- To make recommendations for next OMERACT meeting.

	Title	Speakers
9:00-9:10	Introduction	Marja Leena Kukkurainen
	Invited presentation	
9:10	Personal life impact measures	Tessa Sanderson (UK)
	Oral abstract presentations (<i>10 minutes each</i>)	
9:30	Younger subjects with chronic musculoskeletal pain and high depression scores benefit the most from a multimodal rehabilitation programme	Ann B.I. Bremander (Sweden)
9:40	Outcome Measures Used in Non-drug, Non-surgical Arthritis Trials: What is Guiding Our Clinical Practice Guidelines?	Pat L. Fox (Canada)
9:50	What Aspects Do Outcome Measures Used in Team Rehabilitation Really Measure?	Sofia Hagel (Sweden)
10:00	Disease-related stressors and depression in patients with Systemic Sclerosis	Els van den Ende (The Netherlands)
10:10	Association of Disability in Valued Life Activities with Patient Global Assessments of Disease	Patricia P. Katz (USA)
10:30-11:10	Break and poster viewing	
	Invited presentation	
11:10	Patient perspectives on outcomes	Christina Opava (Sweden)
11:30	Presentation of results of patient perspective survey and details on activities to engage in during break out sessions	Maura Iversen (USA)
12:00	Discussion of presentations	
12:30-14:00	Lunch	
14:00-15:30	Conclusions and recommendations	
15:30-16:30	Steering Committee Wrap-up Meeting
